ROSES THAT LAST FOREVER

EXCLUSIVE BY FOUR SEASONS QUALITY

For more info go to RoseAmor.nl

FOUR SEASONS QUALITY & ROSE AMOR

Four Seasons Quality has become a standard in the world of roses when it comes to quality and reliability. As an importer of high-quality Ecuadorian roses, our mission is to provide the best and most in-demand roses in the market.

As part of this philosophy, we have entered into an exclusive collaboration with the best known producers of preserved roses. RoseAmor, 'Roses that last forever'.

RoseAmor's preserved roses are made of a specifically selected species cultivated on the Emihana farm in Cayambe, Ecuador. The harvested roses are treated using a special procedure that extends their shelf life with several years without compromising the roses' natural shape and radiance. The roses can then be produced in nearly all colors imaginable.

BEAUTY WITH INFINITE POSSIBILITIES

Because of this special preservation process, the product can maintain the beauty of a rose in bloom. The exceptional properties of a rose, especially its color and shape, are best kept if exposure to direct sunlight, moisture, and extremely high and low temperatures are avoided. Under the right circumstances, the rose will maintain its perfect condition for a very long period.

It is an ideal product for those creative people among us. The long lifespan, diversity of products and the broad color palette on offer make RoseAmor a flower of infinite possibility. It is no coincidence that we use the slogan 'Your imagination and creativity are the only limits'!

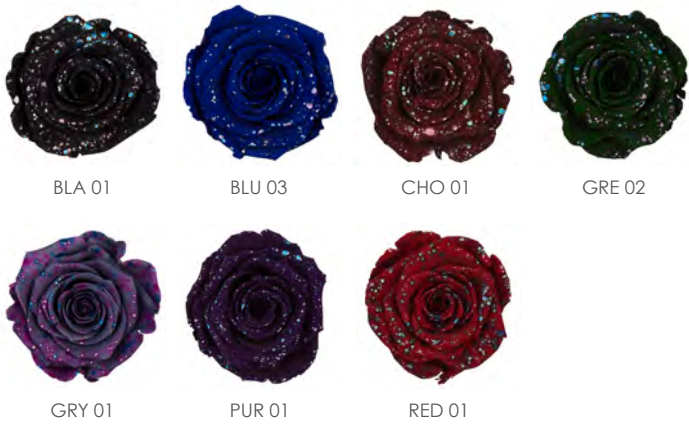

We are proud to offer you this product as the international and exclusive partner of RoseAmor.

Do not expose to direct
sunlight or dust

TREATMENTS
